

Dr. Gareth Gretton

Senior Advisor - Evidence,
Insight and Innovation at
Energy Efficiency and
Conservation Authority
(EECA)

Dr Gareth Gretton is a lead advisor in the Evidence, Insights and Innovation team at the Energy Efficiency and Conservation Authority (EECA). His work includes a major focus on NZ's existing homes, and he leads research to better understand the energy efficiency, carbon, health, and wellbeing impacts of retrofit. He has a background in mechanical building services, engineering education, and modelling of renewable energy.
